

Xometry Reports First Quarter 2023 Results

May 10, 2023

- Q1 revenue increased 26% year-over-year driven by stronger-than-expected marketplace growth of 35% year-over-year. Marketplace revenue up 10% quarter-over-quarter
- Q1 gross profit increased 20% year-over-year driven by 41% growth in marketplace gross profit. Marketplace gross profit up 16% quarter-over-quarter
- Q1 Adjusted EBITDA loss of \$11.8 million, a \$2.5 million quarter-over-quarter improvement driven by higher revenue and gross profit, partly offset by approximately \$0.8 million in incremental non-recurring accounting and legal costs associated with Sarbanes-Oxley Act implementation. Expect improved operating leverage through 2023
- Expect Q2 revenue growth of 14%-16% year-over-year to \$109-\$111 million, driven by healthy marketplace growth
- Early positive results from our 5-point strategic plan with increasing focus on our top 200 accounts; rapidly expanding the marketplace menu; furthering international expansion and growth; driving adoption of new products, and aggressively reducing operating expenses

NORTH BETHESDA, Md., May 10, 2023 (GLOBE NEWSWIRE) -- Xometry, Inc. (NASDAQ:XMTR), the global online marketplace connecting enterprise buyers with suppliers of manufacturing services, today reported financial results for the first quarter ended March 31, 2023.

"In Q1 2023, Xometry delivered stronger-than-expected 35% marketplace growth year-over-year, improved marketplace gross margin by 170 basis points quarter-over-quarter and improved operating leverage driven by our steadfast focus on our 5-point strategic plan," said Randy Altschuler, Xometry's CEO. "We continue to rapidly expand our network of buyers and suppliers and enhance our products and services. We expect to continue to rapidly gain market share fueling robust marketplace revenue growth while further tightening operating expenses to achieve Adjusted EBITDA profitability in Q4 2023."

First Quarter 2023 Financial Highlights

- Total revenue for the first quarter 2023 was \$105.3 million, an increase of 26% year-over-year.
- Marketplace revenue for the first quarter of 2023 was \$86.7 million, an increase of 35% year-over-year.
- Supplier services revenue for the first quarter of 2023 was \$18.6 million, a decrease of 3% year-over-year.
- Total gross profit for the first quarter 2023 was \$39.4 million, an increase of 20% year-over-year.
- Marketplace Active Buyers increased 46% from 30,683 as of March 31, 2022 to 44,716 as of March 31, 2023.
- Marketplace Accounts with Last Twelve-Months Spend of at least \$50,000 increased 40% from 790 as of March 31, 2022, to 1,109 as of March 31, 2023.
- Marketplace Percentage of Revenue from Existing Accounts was 96%.
- Active Paying Suppliers increased 11% from 6,872 as of March 31, 2022 to 7,621 as of March 31, 2023.
- Net loss attributable to common stockholders was \$18.3 million for the quarter, a decrease of \$1.7 million year-over-year, and Adjusted EBITDA was negative \$11.8 million for the quarter, reflecting an increase of \$1.0 million year-over-year. Net loss for Q1 2023 included \$4.7 million of stock-based compensation.
- Cash, cash equivalents and marketable securities were \$296.2 million as of March 31, 2023.

First Quarter 2023 Business Highlights

- Expanded further in Europe with the launch of [xometry.uk](https://www.xometry.uk), a localized marketplace for UK customers. Xometry's localized marketplaces allow regional customers to get quotes and purchase parts directly in local currency.
- Introduced instant quoting for parts with multiple finishes. Buyers can identify parts requiring multiple finishes and the instant quoting engine will automatically price them. This instant feedback helps buyers make decisions in real-time.
- Introduced a new quick-turn injection molding service for quotes in as fast as two hours and parts in as little as five business days.
- Expanded instant quoting for more than three dozen new materials.
- Announced Xometry will be the exclusive provider of real-time pricing and lead times for Alibaba Group's 1688.com

on-demand manufacturing services.

- Acquired Tridi Teknoloj A.S. ("Tridi") located in Istanbul, Turkey. The acquisition of Tridi extends our marketplace capabilities in Europe by opening an array of affordable suppliers and the ability to serve all of Europe within a 24-hour turnaround period.

Xometry's second quarter and full year 2023 financial outlook is based on a number of assumptions that are subject to change and many of which are outside of its control. If actual results vary from these assumptions, Xometry's expectations may change. There can be no assurance that Xometry will achieve these results.

Reconciliation of Adjusted EBITDA on a forward-looking basis to net loss, the most directly comparable GAAP measure, is not available without unreasonable efforts due to the high variability and complexity and low visibility with respect to the charges excluded from this non-GAAP measure; in particular, the effects of stock-based compensation expense specific to equity compensation awards that are directly impacted by unpredictable fluctuations in Xometry's stock price. Xometry expects the variability of the above charges to have a significant, and potentially unpredictable, impact on its future GAAP financial results.

Use of Non-GAAP Financial Measures

To supplement its consolidated financial statements, which are prepared and presented in accordance with generally accepted accounting principles in the United States of America ("GAAP"), Xometry, Inc. ("Xometry", the "Company", "we" or "our") uses Adjusted EBITDA, non-GAAP net loss and non-GAAP Earnings Per Share, which are considered non-GAAP financial measures, as described below. These non-GAAP financial measures are presented to enhance the user's overall understanding of Xometry's financial performance and should not be considered a substitute for, nor superior to, the financial information prepared and presented in accordance with GAAP. The non-GAAP financial measures presented in this release, together with the GAAP financial results, are the primary measures used by the Company's management and board of directors to understand and evaluate the Company's financial performance and operating trends, including period-to-period comparisons, because they exclude certain expenses and gains that management believes are not indicative of the Company's core operating results. Management also uses these measures to prepare and update the Company's short and long term financial and operational plans, to evaluate investment decisions, and in its discussions with investors, commercial bankers, equity research analysts and other users of the Company's financial statements. Accordingly, the Company believes that these non-GAAP financial measures provide useful information to investors and others in understanding and evaluating the Company's operating results in the same manner as the Company's management and in comparing operating results across periods and to those of Xometry's peer companies. In addition, from time to time we may present adjusted information (for example, revenue growth) to exclude the impact of certain gains, losses or other changes that affect period-to-period comparability of our operating performance.

The use of non-GAAP financial measures has certain limitations because they do not reflect all items of income and expense, or cash flows, that affect the Company's financial performance and operations. Additionally, non-GAAP financial measures do not have standardized meanings, and therefore other companies, including peer companies, may use the same or similarly named measures but exclude or include different items or use different computations. Management compensates for these limitations by reconciling these non-GAAP financial measures to their most comparable GAAP financial measures in the tables captioned "Reconciliations of Non-GAAP Financial Measures" included at the end of this release. Investors and others are encouraged to review the Company's financial information in its entirety and not rely on a single financial measure.

Key Terms for our Key Metrics and Non-GAAP Financial Measures

Marketplace revenue: includes the sale of parts and assemblies.

Supplier service revenue: includes the sales of advertising on Thomasnet, marketing services, supplies, financial service products and other fintech products.

Active Buyers: The Company defines "buyers" as individuals who have placed an order to purchase on-demand parts or assemblies on our marketplace. The Company defines Active Buyers as the number of buyers who have made at least one purchase on our marketplace during the last twelve months.

Active Suppliers: The Company defines "suppliers" as individuals or businesses that have been approved by us to either manufacture a product on our platform for a buyer or have utilized our supplier services, including our digital marketing services, data services, financial services or supplies. The Company defines Active Suppliers as suppliers that have used our platform at least once during the last twelve months to manufacture a product or buy tools or supplies.

Percentage of Revenue from Existing Accounts: The Company defines an "account" as an individual entity, such as a sole proprietor with a single buyer or corporate entities with multiple buyers, having purchased at least one part on our marketplace. The Company defines an existing account as an account where at least one buyer has made a purchase on our marketplace.

Accounts with Last Twelve-Month Spend of At Least \$50,000: The Company defines Accounts with Last Twelve-Month Spend of At Least \$50,000 as an account that has spent at least \$50,000 on our marketplace in the most recent twelve-month period.

Active Paying Suppliers: The Company defines Active Paying Suppliers as individuals or businesses who have purchased one or more of our supplier services, including digital marketing services, data services, financial services or supplies on our platforms during the last twelve months.

Adjusted earnings before interest, taxes, depreciation and amortization (Adjusted EBITDA): The Company defines Adjusted EBITDA as net loss, adjusted for interest expense, interest and dividend income and other expenses, income tax provision (benefit), and certain other non-cash or non-recurring items impacting net loss from time to time, principally comprised of depreciation and amortization, amortization of lease intangible, stock-based compensation, charitable contributions of common stock, income from unconsolidated joint venture, impairment of assets, restructuring charges and acquisition and other adjustments not reflective of the Company's ongoing business, such as adjustments related to purchase accounting, the revaluation of contingent consideration and transaction costs.

Non-GAAP net loss: The Company defines non-GAAP net loss as net loss adjusted for depreciation and amortization, stock-based compensation expense, amortization of lease intangible, amortization of deferred costs on convertible notes, loss on marketable securities, loss on sale of property and equipment, charitable contributions of common stock, impairment of assets, restructuring charges and acquisition and other adjustments not reflective of the Company's ongoing business, such as adjustments related to purchase accounting, the revaluation of contingent consideration and transaction costs.

Non-GAAP Earnings Per Share, basic and diluted (Non-GAAP EPS, basic and diluted): The Company calculates non-GAAP earnings per share, basic and diluted as non-GAAP net loss divided by weighted average number of common stock outstanding.

Management believes that the exclusion of certain expenses and gains in calculating Adjusted EBITDA, non-GAAP net loss and non-GAAP EPS, basic and diluted provides a useful measure for period-to-period comparisons of the Company's underlying core revenue and operating costs that is focused more closely on the current costs necessary to operate the Company's businesses and reflects its ongoing business in a manner that allows for meaningful analysis of trends. Management also believes that excluding certain non-cash charges can be useful because the amount of such

expenses is the result of long-term investment decisions made in previous periods rather than day-to-day operating decisions.
